

especially along Hwy. 52,  
the location of the proposed  
site.

Public Comment regarding the proposed Quail Brush Generation Project

I would like to make the following written comment. I understand that my comments will be docketed and may be posted on the Energy Commission's website and be available to the public.

① A few fires occur in Mission Trails / East Elliott  
Every year, "No gas plant in a high-fire zone. It's  
Fire Danger → ② Not a sufficient evacuation route for my neighborhood if a fire/explosion  
not safe."

route for my neighborhood if a fire/explosion

were to occur. ③ Not enough fire fighting resources if a big  
Santa Ana type fire were to occur ~ high velocity winds.

Visual / Noise Impacts - Mission Trails

Regional Park will no longer be the

same... So much for the tranquility

and beauty of the grasslands /

Oak Canyon / Campground < day use  
night use too /

+ newly-developed Equestrian Area, as well  
as the hiking/biking/bouldering areas next to  
the proposed site on trails north of Hwy. 52.

Fire, continued ④ It's already difficult to get homeowners'  
fire insurance. Two companies have declined to  
insure homes here because it's a high fire hazard  
zone. Yet it's OK to build a gas plant here?  
The citizens ~ WE don't agree.
