

Public Comment regarding the proposed Quail Brush Generation Project

I would like to make the following written comment. I understand that my comments will be docketed and may be posted on the Energy Commission's website and be available to the public.

I assumed that when I moved to East County, Santee, that there would be no problems having to deal with the effects of a power plant being built near my home. In spite of what you say, property values will decrease and air quality will suffer. Do you, personally, want to live next to a power plant? I doubt it seriously.
