Categories: Ready to Docket

Dear CEC Commissioners,

My family and I are Santee residents who are regular visitors to Mission Trails Park. We are horrified at the proposals to build a power plant there. I therefore urge you to reject Quail Brush Power Plant! 11-AFC-03. Mission Trails Park is a place of outstanding natural beauty and a habitat for wild animals which will, quite simply, be ruined by this power plant. I am devastated at the thought this might go ahead. What is more, being on the edge of the City of Santee, this will be a blot on the landscape and will irreparably damage our safe and peaceful community. Rooftop solar is a much better way to generate energy. PLEASE PLEASE do not approve the power plant!

Sincerely,
Anna King
