Public Comment regarding the proposed Huntington Beach Energy Project

I would like to make the following written comment. I understand that my comments will be docketed and may be posted on the Energy Commission's website and be available to the public.

Question: I was told at the last meeting (at City Hall) ^{Central Library} that the new plant will be more polluting because it will be running at a greater percentage of the time ^{than the old plant} and including that the start up time for the new plant will be much faster than the old plant.
