**Subject:** CEC record - Docket #11 - AFC - 03 Quail Brush Power Generation Siting Case

Dear Eric,

Many members of the San Diego community and myself will not rest until you and the CEC decide on a "No Project Alternative" in regards to the proposed Quail Brush Power Plant project. We are weary of battling out-of-town profiteers who know nothing about San Diego and think it's a good idea to put a power plant on top of our park.

The San Diego Planning Commission, Santee City Council and San Diego City Council have all expressed their opposition to the idea.

I know that you cannot stop a locomotive on a dime, but please do begin to wind down this "freight train of destruction" sooner rather than later so that we can concentrate on better, greener energy solutions for our region.

Best wishes,

Patty Mooney
