**Subject:** Uphold ALJ Decision to reject SDG&E A1105023

**Categories:** Ready to Docket

Happy New Year to you all!

Please support Administrative Law Judge Yacknick's 11/20/12 decision rejecting SDG&E's application 1105023 for the Quail Brush, Pio Pico, and Escondido gas power plants. These fossil fuel plants would use inefficient polluting technology for unneeded power and do not move California towards the achievement of its sustainable clean energy goals.

Energy conservation is working. Southern California peak energy is static, contrary to claims by SDG&E and Cogentrix, which together seek to build redundant plants for their own financial gain. We object to SDG&E profiting from selling the gas and the electricity, while we citizens pay for the significant and unnecessary costs of these fossil fuel plants by suffering the related health impacts and by paying increased utility rates.

We support the use of local rooftop/parking lot solar and further energy efficiency steps for any future needed power peaking generation. In fact, we have just purchased a new solar system for our home! Both our sun-blessed county (San Diego) and our state have a special opportunity to be leaders in the movement to reduce greenhouse gases.

In asking you to reject SDG&E's application, We add our voices to thousands of local residents, Democrat Assembly Member Marty Block, Republican Assembly Member Brian Jones, San Diego Mayor Bob Filner, the entire San Diego City Council, the city of San Diego Planning Commission, and other elected officials in the county and federal branches all of whom oppose the Quail Brush project.

We sincerely urge you to uphold the decision of the Administrative Law Judge!
