Project Title: Adoption of revisions to *Guidelines for California's Solar Electric Incentive Programs Pursuant to Senate Bill 1*

Project Location: 1516 9th Street, Sacramento, Sacramento County, California 95814

Description of Nature, Purpose, and Beneficiaries of Project: The purpose of this activity is to revise guidelines previously adopted by the California Energy Commission pursuant to Public Resources Code section 25780 et seq., as enacted by Senate Bill 1 (SB 1, Statutes of 2006, Chapter 132). The guidelines establish eligibility criteria, conditions for incentives and rating standards for all ratepayer-funded solar energy incentive programs pursuant to SB 1, including programs administered by the California Energy Commission, the California Public Utilities Commission (CPUC), and local publicly owned electric utilities (POUs). The guidelines were revised to modify the field verification requirements, performance monitoring & maintenance component, and to add clarification criteria for adding equipment to and a procedure for removing equipment from the Energy Commission's Eligible Equipment Lists, along with the inclusion of other clarifying and non-substantive changes. The California Energy Commission, the CPUC, POUs, and manufacturers, retailers, installers and marketers of solar energy systems that qualify for program funding benefit from the adoption of these guideline revisions.
