I am in receipt of your letter dated 12/5/12 regarding the proposed rebuilding of the AES plant in Redondo Beach. As you may be aware, local residents are vehemently opposed to this project and even have a website, <http://nopowerplant.com/npp/> dedicated to making sure this plan doesn't move forward. Whatever you can do to protect local residents such as myself who reside downwind of the plant in this densely populated area would be GREATLY appreciated. The best case scenario as far as we are concerned would be to "rebuild" the plant with a community park.

Craig Scott
