PROJECT TITLE: Huntington Beach Energy Project (HBEP)

<input checked="" type="checkbox"/> Email		<input type="checkbox"/> Meeting Location:			
NAME:	Lisa Worrall, CEC Planner II	DATE:	Feb. 1, 2013	TIME:	9:42 am
WITH:	Aaron Klemm, Energy Project Manager, City of Huntington Beach Jane James, Senior Planner, City of Huntington Beach				
SUBJECT:	Method and Rate of Calculating Applicable Development Impact Fees to the HBEP				

I communicated with Aaron Klemm, Energy Project Manager with the City of Huntington to ascertain the rate and method used to calculate the development impact fees applicable to the HBEP. Jane James, Senior Planner with the City of Huntington Beach contacted me regarding the method of calculation of the fees and explained that she is working with Mr. Klemm to answer my question about the development impact fees. She explained that they had not assessed fees for a project of this type before. I pointed out the general arrangement/site plan in the AFC, Figure 2.1-1, and the list of equipment on the figure. I offered her assistance or additional discussion if she needed it or had any questions about the features proposed by the project. A few days later, I received the following response to my questions from Mr. Klemm. The development impact fee sheet is attached to the ROC:

Subject: RE: Applicable development fees for the Huntington Beach Energy Project (HBEP)

Lisa:

Please find attached a scan of the current Development Impact fees in Huntington Beach. As a result of discussions with Planning staff, staff have determined that the footprint of the power blocks, HRSGs, cooling towers and administration buildings would form the basis for the fee calculation, if the city were the permitting authority.

In cases where the administration buildings are multi-story then the enclosed square footage would be used for those facilities.

Subject: RE: Applicable development fees for the Huntington Beach Energy Project (HBEP)

Hi Aaron,

Thanks for that information. Regarding the applicable development fees, what is the exact fee that would be assessed for the library, fire, police, and park development impact fee? Is it a price per square foot of covered and

enclosed building space, or some other fee structure? I would like to explain the fees due and provide an estimation of the fees that are due for each of the fee areas. Any information you can give me regarding the development fees will be of great assistance.

If you have any questions, please call me.

Thanks,

Lisa Worrall
