SUPPLEMENTAL TESTIMONY

Intervenor Old Spanish Trail Association (OSTA) herein submits its Supplemental Testimony, Declaration of Jack Prichett, Supplemental Exhibit List, Supplemental Exhibits and Request for Judicial Notice (collectively Supplemental Documents) regarding the application for certification of the proposed Hidden Hills Solar Energy Generating System (HHSEGS).

All of the Supplemental Documents presented herein were prepared, compiled and submitted by Jack Prichett, the person testifying in his attached Declaration.

The Supplemental Testimony consists of the 3 documents set forth in the Supplemental Exhibit List and the attached Exhibits 623 and 624. The new Testimony and Exhibits support OSTA's position that segments of the OSNHT/MR NC **do** fall within the HHSEGS site. In particular, Exhibit 623 provides supplementary information regarding the Trail corridor. Exhibit 623 is the Federal Standard governing National Historic Trails. It clarifies the definition of the National Historic Trail Corridor Concept and explicitly states that the location of NHT² resources may fall outside the congressionally designated route. Exhibit 624 provides a visual demonstration that LIDAR, a remote-sensing technique would provide far superior data recovery than visible light satellite imagery proposed in mitigation measure CUL-9, as written in the FSA.

OSTA reserves the right to supplement and/or revise this testimony at any time up to and including the close of the evidentiary hearings. Moreover, many of the factual issues discussed in the Supplemental Testimony and Documents involve both legal and factual questions while others are predominately legal issues. Therefore, OSTA respectfully reserves the right to address all disputed issues identified at the hearings through testimony, rebuttal, cross-examination, or at later stages of this process including in briefing following the evidentiary hearing.

Pursuant to the discussion at the Prehearing Conference on February 26, 2013, OSTA may also file additional Opening Testimony on the topic of Visual Resources.

OSTA also requests that the Commission take official notice of documents cited in testimony which are published by the California Energy Commission and are available on the Commission website. Some of those documents are included in the Exhibit List, with the URL link cited.

Declaration of Jack Prichett

Re: Supplemental Testimony on Cultural Resources Relative to the Application for Certification for the Hidden Hills Solar Energy Generating System

Docket No. 11-AFC-02

I, Jack Prichett, declare as follows:

1. I am currently a cultural resources and communications consultant and have held this position for more than nine years.
2. My relevant professional qualifications and experience are set forth in my previously submitted resume and in the testimony presented above, which are incorporated herein by reference.
3. I prepared the supplementary testimony attached hereto and incorporated herein by reference, relating to (1) significance of the Old Spanish National Historic Trail as a cultural resource and (2) needed reformulation of CUL-9 in the CEC's Final Staff Assessment.
4. It is my professional opinion that the testimony above is true and accurate with respect to the issues that are addressed.
5. I am personally familiar with the facts and conclusions described within the testimony above and if called as a witness I could testify competently thereto.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct to the best of my knowledge and belief.

Dated: February 15, 2013
