Subject: Voice Message re Quail Brush and Pio Pico Projects

Good morning team. This is a voice message that I came through on the weekend. If you need me to follow up with anything, please let me know how I can assist.

"My name is Mike Sullivan, a resident of San Diego at (858) 277-2625. I'm calling to ask you to stop Quail Brush and Pio Pico power projects by choosing a no-project alternative and to uphold City of San Diego zoning rules and the wishes of most local San Diego residents and all voting decisions of the San Diego city council regarding this power plant.

Please respect the wishes of local residents and elected officials, we the public and uphold the November decision which rejects the rezoning for these power plants."

Donna Parrow
Executive Assistant
