RE: Recommend CEC Change of Definition of Station Service Work to FERC Definition

To Whom it may concern:

We recommend that the **CEC change the proposed definition of station service to the FERC definition.**

Their definition is the industry standard that creates a level playing field for all technologies, and should not be unnecessarily contradicted.

We would ask that the CEC recognize this industry accepted definition.

Please circulate this letter to the rest of the Commission members.

Thank you.

Respectfully,

TAS ENERGY, INC.
