Re: Docket No. 12-AAER-2D – Commercial Clothes Dryers

Dear Mr. Singh:

Thank you for the opportunity to comment on the California Energy Commission's development of appliance energy efficiency measures (March 25, 2013), which seeks information from interested parties as it considers establishing minimum operating efficiency standards, test procedure, marking & labeling requirements, and other efficiency measures.

As a very active member of the Association of Home Appliance Manufacturers (AHAM), Whirlpool Corporation has worked closely with them in the development of the comments they submitted (under separate cover). Please be advised that we strongly support and echo the positions taken by AHAM.

Thank you again for your consideration and please let me know if the California Energy Commission would like to discuss this matter further.

Respectfully,

Nick Gillespie  
Government Relations Manager

California Energy Commission
