

Demand Response and Energy Efficiency Roadmap Workshop

May 13, 2013 9:30 AM – 4:30 PM

Welcome – Steve Berberich, ISO President and CEO

Workshop Introduction – Heather Sanders, ISO Director, Regulatory Affairs – Distributed Energy Resources

Panel 1 - Demand Response / Energy Efficiency Goals: This panel will explore objectives from different stakeholder perspectives that will drive the ISO roadmap activities.

Facilitator: Heather Sanders, ISO Director, Regulatory Affairs – Distributed Energy Resources

- Barbara Barkovich, California Large Energy Consumers Association
- John White, Center for Energy Efficiency and Renewable Technologies
- Ken Abreu, Pacific Gas & Electric
- Mona Tierney-Lloyd, EnerNOC

Panel 2 - ISO Market Integration: This panel will discuss what types of demand response programs make sense to integrate in the ISO market and what is needed to do this.

Facilitator: Khaled Abdul-Rahman, ISO Executive Director, Power System & Smart Grid Technology Development

- Beth Reid, Olivine
- Carlos Lamas-Babbini, Comverge
- Muir Davis, Southern California Edison
- Sila Kiliccote, Lawrence Berkeley National Lab

Panel 3 - Wholesale and Retail Alignment: This panel will discuss how signals that are an indication of grid conditions could enable retail customers to shape load in ways favorable to the grid.

Facilitator: John Goodin, ISO Regulatory Policy Manager

- Barbara Barkovich, California Large Energy Consumers Association
- Jeff Bladen, DNV KEMA – Energy & Sustainability
- Karen Herter, Herter Energy Research Solutions
- Muir Davis, Southern California Edison

Panel 4 - Transmission Alternatives: Focus on activities needed to enable demand response and energy efficiency as transmission and generation capacity alternatives.

Facilitator: Neil Millar, ISO Executive Director, Infrastructure Development

- Barbara George, Women's Energy Matters
- Luke Tougas, Pacific Gas & Electric
- Sierra Martinez, Natural Resources Defense Council
- Carl Silsbee, Southern California Edison

Panel 5 - DR/EE Investments: This panel focuses on what mechanisms could be put in place to encourage investments in the “right” demand response.

Facilitator: Greg Cook, ISO Director Market and Infrastructure Policy

- George Katsufakis, San Diego Gas & Electric
- Glenn Steiger, North America Power Partners LLC
- Karen Herter, Herter Energy Research Solutions
- Rich Quattrini, Johnson Controls
