Chair California Energy Commission Robert Weisenmiller

Dear Chair California Energy Commission Weisenmiller,

I support the petition submitted on June 5, 2013 by the Sierra Club, American Lung Association in California and other parties requesting that the California Energy Commission (CEC) perform a societal cost-benefit evaluation of California's Net Energy Metering Program.

I myself would love to install solar but cannot due to the costs of installation. I happen to be in a grey area not serviced by the large CA utilities and therefore not eligible for any CA rebates.

I respectfully request that you grant the petition and perform the societal cost-benefit study requested by the petitioners.
Thank you for your consideration.

Sincerely,

Kelly Takemoto
