Chair California Energy Commission Robert Weisenmiller

Dear Chair California Energy Commission Weisenmiller,

I support the petition submitted on June 5, 2013 by the Sierra Club, American Lung Association in California and other parties requesting that the California Energy Commission (CEC) perform a societal cost-benefit evaluation of California's Net Energy Metering Program. Rooftop solar generates huge benefits for Californians such as myself. Thanks to policies like net metering, schools are saving money, the air is cleaner, and tens of thousands of Californians have headed back to work.

I respectfully request that you grant the petition and perform the societal cost-benefit study requested by the petitioners.  
Thank you for your consideration.

Sincerely,

Barbara Renton
