WITH: Magdalena Rodriquez (CDFW)	
SUBJECT: Palen Solar Electric Generating System - Lake or Streambed Alternation Notification Amendment form	
<p>I contacted Magdalena Rodriquez, CDFW biologist, regarding the outstanding request that Palen Solar Holdings (PSH) submit a Lake or Streambed Alternation (LSA) Notification Amendment form and all required information and fee for the Palen Solar Electric Generating System to address additional impacts to jurisdictional state waters from the proposed modified project. Magdalena spoke to Alice Karl, lead biologist for Palen Solar Energy Generating System project, on July 9, 2013 via phone and explained that the LSA amendment application requested on April 24 is simply for CDFW to get the streambed information in the form that CDFW do for any other project so that they can look at the project impacts and mitigation and advise CEC accordingly on CDFW recommendations for streambed conditions, impacts, and mitigation. Alice Karl stated she didn't think it would be an issue to fill the amendment application out and send it to the CDFW Ontario office for review. Alice stated to speak with Scott Galati to verify that PSH would send the document. Magdalena provided the form and further instructions via email to Alice on July 10, 2013 (see attached email).</p>
