Ms. Larson,

We are currently discussing comments received earlier this week on the 15-day language released April 19, and we plan to adopt in early June before sending the final rulemaking package to OAL. If we decide to release new 15-day language, we will post it on our website and notify the Renewable listserver (if you are not subscribed to this listserver, you can do so here: <http://www.energy.ca.gov/listservers/>).

Subject: Renewable Portfolio Standards

Good afternoon Ms. Gould,

I track regulations at Stateside Associates and am filling in for Melissa Martin, who you may have spoken with previously. I wanted to follow up with you to see if there will be another 15-day comment period for the Renewable Portfolio Standards rule or if the final rule will go to OAL. Any insight would be greatly appreciated.

Thank you,

Kate Larson
