Subject: RENEWABLE-

LIST: Enforcement Procedures for the RPS for POUs removed from May 8 Business Meeting agenda

Date: Thursday, May 02, 2013 5:29:21 PM

The Energy Commission has removed consideration of the Enforcement Procedures for the Renewables Portfolio Standard for Local Publicly Owned Electric Utilities (Proposed Regulations) from the May 8, 2013, Business Meeting Agenda. Consideration of this item was removed from the Business Meeting Agenda to provide the Energy Commission more time to consider written comments on the 15-day language changes for the Proposed Regulations, which are due on May 6, 2013. Stakeholders and members of the public are encouraged to provide written comments in advance of the May 6 due date.

The Proposed Regulations will be considered for adoption at a special Business Meeting anticipated to be held June 5, 2013.

The Proposed Regulations establish the rules and procedures by which the Energy Commission will assess a POU's procurement actions and determine whether those actions meet the RPS procurement requirements in the law. The Proposed Regulations require POUs to submit various information and reports to the Energy Commission, so the Energy Commission may verify and determine compliance with the RPS, and, if appropriate, issue a notice of violation and correction for a POU's failure to comply and refer the violation to the California Air Resources Board for potential penalties.
