

**California Energy Commission**  
**Joint IEPR-Transportation Lead Commissioner Workshop**  
**Transportation Energy Scenarios**  
**July 31, 2013, Hearing Room A**  
**9:00 am**

**AGENDA**

**Introduction**

Tim Olson, Energy Commission

**Opening Comments**

Commissioner Janea Scott  
Commissioner Andrew McAllister

**Alternative Fuel Scenario Summaries**

Low Carbon Fuel 2020 Outlook – Philip Sheehy, ICF

**Vehicle Growth Scenarios I**

Diesel Technology Growth – Allen Schaeffer, Diesel Technology Forum

**Biofuel Scenarios**

Advanced Biofuel Growth Scenarios – Mary Solecki, Environmental Entrepreneurs  
Exports of Sugar Cane Ethanol from Brazil to California – Plinio Nastari, Datagro Brazil  
California Biodiesel Growth Scenarios – Russell Teall and Joe Gershen, California Biodiesel Alliance  
Future Outlook for California's Existing Low Carbon Ethanol Producers – Tom Koehler, Pacific Ethanol  
E85 and Biofuel Fueling Station Growth Potential – Adam Walter, Propel Fuels

**Public Comment**

**LUNCH BREAK (60 minutes) [12:00 – 1:00]**

California Energy Commission

**DOCKETED**

**13-IEP-IL**

**TN # 71792**

**AUGUST 1 2013**

**Biofuel Scenarios**

Exports of Sugar Cane Ethanol from Brazil to California – Joel Velasco, UNICA Sugar Cane Industry Association of Brazil

**Electric Transportation and Hydrogen Fuels**

Analyzing the Transition to Electric Transportation in California – David Greene, Oakridge National Laboratory

Electric Transportation Scenarios – Eileen Tutt, California Electric Transportation Coalition

Hydrogen Fuel Cell Vehicle and Infrastructure Growth in California – Catherine Dunwoody, California Fuel Cell Partnership

Electricity and Alternative Fuel Use in California High Speed Rail – Mark McLoughlin, California High-Speed Rail Authority

**Natural Gas Transportation Use**

Exploring Options for Natural Gas Transportation – Rosa Dominguez-Faus, UC Davis Institute of Transportation Studies and Graduate School of Management

Growth Scenarios of Natural Gas Vehicles and Infrastructure – Tim Carmichael, California Natural Gas Vehicle Coalition

Renewable Natural Gas Potential as a Transportation Fuel – Johannes Escudero, The Coalition for Renewable Natural Gas

**Vehicle Growth Scenarios II**

Alternative Fuels and Clean Diesel Use in Medium and Heavy Duty Trucks and Buses – Fred Silver, CALSTART

**Public Comment****Closing Remarks and Adjourn**
