OCT. 16 2013

Two questions, please:

1. If the monies are awarded in December, approval for permits submitted in December does that qualify the project for Title 24 code rules in effect in 2013? If the approval process takes us past December 31, 2013, does that mean that the project must comply with 2014 code? What is the key determining date for code compliance rules?
2. Can a paid or unpaid energy auditor be one of the bidding contractors on a project or do the auditor and contractor need to be separate business/legal entities?
