Dear Ms. Smith,

I am the Managing Director of the School Project for Utility Rate Reduction (SPURR) a joint powers authority (JPA) of California public K-12 school districts, county offices of education, and community colleges. We have some comments and questions regarding Prop 39 implementation, as shown below.

A) When will standards on Data Analytics be available for review?

B) When will the Savings Calculator be available for public review?

We submitted an earlier round of comments and questions on October 9.

Regards,

Michael Rochman, Managing Director  
School Project for Utility Rate Reduction (SPURR)
