Hello Mark:

Thank you for your comments. They have been forwarded to the Docket for consideration
Energy – Prop 39

Subject: Proposition 39 Comment

Priority 1 lists," Retrofit existing 4 foot and 8 foot T12 fluorescent fixtures with 28-watt T8 lamps."

Will there be any consideration for T12 and T8 LED lamps which use less watts than fluorescent?

Will there be any consideration for the recyclable content used in light bulb?
