Good evening- I have the following questions on the proposed Guidelines. My compliments on a well drafted work product.

1. See Page 28 "No Retroactive Funding of Projects- Please clarify what is meant by the term "implementation took place" as found in the following sentence "if energy projects implementation took place prior to final guidelines approval date..."
2. See Page 28- Would the retroactive limitation prohibit an LEA from implementing an energy project after the Guidelines have been approved via a properly authorized amendment to a contract if the original contract was entered into prior to Guideline approval?

thank you
