

California Energy Commission
Renewables Portfolio Standard Eligibility Guidebook Scoping Workshop
January 28, 2013, Hearing Room A
9:30 am

California Energy Commission DOCKETED 11-RPS-01
TN 72675 FEB 14 2014

AGENDA

Introduction

Mark Kootstra, Energy Commission

Opening Comments

Commissioner David Hochschild

Discussion of Energy Commission Proposed Topics

1. The definition of prime generating equipment for repowering
2. The requirement to apply for RPS certification within 90 days of a facility's commencement of commercial operations to retain the precertification eligibility date
3. The definition of a dedicated pipeline for facilities using biomethane not used onsite or delivered through a common carrier pipeline
4. Potential RPS-eligibility of energy storage facilities
5. Application of new eligibility requirements to previously certified facilities
6. Precertification value and challenges

Stakeholder Proposed Topics

Topics to be identified in the workshop
