RE: CEC Pre Certification ID#: 62713C  
 WREGIS ID#: W4286  
 Farmersville 1  
 401A Terry Avenue  
 Farmersville, CA 933233

Attn: Executive Director of the CEC

We are hereby requesting an extension of time for the application for CEC Certification for the above referenced facility. The system achieved COD on July 30, 2014 and therefore the application for CEC Certification was required to be filed by October 28, 2014. We filed our CEC Certification for the already Pre-Certified facility electronically on September 30, 2014; however we failed to send a hard copy to the CEC until November 4, 2014. We are hereby requesting an extension for 7 days beyond the requirement to file the hard copy of the application for CEC Certification within 90 days after achieving COD. The delivery of the hard copy late was inadvertent, and we did file the electronic version in a timely manner.

If the extension is not granted we may not be in compliance with our PPA requirements for the timely filing for the CEC Certification. At a minimum the potential loss to us will be the loss of revenue for the period of October 28, 2014 to November 4, 2014, or the date upon which you accept the CEC Certification.

We appreciate your consideration for an extension of time so that we may be in compliance with the RPS guideline requirements and our PPA with Southern California Edison.

Respectfully yours,

Ed Feo  
 Managing Director  
 Coronal Management
