RE: Nevada Irrigation District's Request for Extension of RPS Certification Deadlines for Dutch Flat #2 Powerhouse (CEC-RPS-ID No. 60264A) and Rollins Powerhouse (CEC-RPS-ID No. 60265A)

Dear Mr. Harman:

This is in response to Nevada Irrigation District's (NID) April 25, 2014 request for extension of RPS certification application deadlines that applied to the recertification of NID's Dutch Flat #2 Powerhouse and Rollins Powerhouse facilities. Resolution 14-0422-11, adopted at the Energy Commission's April 22, 2014 Business Meeting, established a process to allow the Executive Director to extend and waive application deadlines for RPS certification in certain circumstances and specified the criteria and process for requesting such extensions and waivers.

Energy Commission staff has reviewed the documentation submitted by NID pursuant to Resolution 14-0422-11. Based on the explanation of the circumstances surrounding NID's inability to submit a timely application for certification and the financial consequences of not granting an extension, I have determined it is appropriate to grant a 31-day extension of the RPS recertification deadline from September 29, 2013, to October 30, 2013, and to allow the original RPS eligibility date of December 17, 2004, for the Dutch Flat #2 Powerhouse and Rollins Powerhouse facilities to be reinstated. Please refer to the attached staff memorandum dated May 20, 2014 for additional information.

Energy Commission staff will provide NID with revised RPS Certificates for both facilities that show the original eligibility date in the near future, at which time NID will need to confirm in writing that it is withdrawing its "Petition for Reconsideration of the CEC's January 10, 2014 Decision Letter," submitted to the Energy Commission on February 7, 2014.

Sincerely,
