DOCKETED

09-RENEW EO-1

TN # 7421 €

JAN 13 2015

It seems to me that "rooftop generation and distribution of power" is not a part of this draft. This is a very efficient and viable alternative. It requires NO degradation of public lands for power generation or transmission.

Please make this a serious part of the discussion. It is supported by the California Public Utilities Commission and the California Energy Efficiency Strategic Plan.

Thank you for considering this comment.
