RE: Request for Extension of RPS Certification Deadline for the Capital Dynamics' Vinam 9011 Facility (CEC-RPS-ID #61795A)

Dear Messrs. McClenachan and Olsoni:

This is in response to Capital Dynamics' letter dated December 4, 2014 requesting an extension of the RPS certification application deadline for the Vinam 9011 facility. Resolution 14-0422-11, adopted at the Energy Commission's April 22, 2014 Business Meeting, established a process to allow the Executive Director to extend and waive application deadlines for RPS certification in certain circumstances and specified the criteria and process for requesting such extensions and waivers.

Energy Commission staff has reviewed the documentation submitted by Capital Dynamics pursuant to Resolution 14-0422-11. Based on the background information and explanation of the circumstances surrounding Capital Dynamics' inability to submit a complete and timely application for certification, the financial consequences of not granting an extension, and the errors made by staff I have determined it is appropriate to grant an extension of the RPS certification application deadline from October 28, 2013 (90 days after the commercial operations date of July 30, 2013) to November 18, 2013, and to allow the original RPS eligibility date of December 19, 2011 for the Vinam 9011 facility to be reinstated.

Energy Commission staff will provide Capital Dynamics with revised RPS Certificates for the Vinam 9011 facility that shows the original RPS eligibility date in the near future. If you have further questions about this matter, please contact Lynette Green at [Lynette.Green@energy.ca.gov](mailto:Lynette.Green@energy.ca.gov) or 916-653-2728.

Sincerely,

A handwritten signature in blue ink, appearing to read "Robert P. Oglesby", with a long horizontal flourish extending to the right.

Robert P. Oglesby  
Executive Director
