California Energy Commission

DOCKETED

15-MISC-01

TN # 74655

FEB 23 2015

Re: Docket # 15-MISC-01

Barry Swenson Builder is a Design-Develop-Build firm that has been operating in Northern California for over 46 years. We currently have projects that are being adversely affected by aspects of the 2013 Energy Code.

We urge the Commission to accept APP-TECH Incorporated's Petition and schedule public workshops to address the issues identified, and develop solutions for them. Builders cannot wait until the next version of the Code becomes effective, sometime in 2017, for these errors to be corrected.

We are current in for a plan check for a 94 unit mixed use building down town Santa Cruz, and our title 24 will be incomplete do to your modeling and software.

We need a little help to make the 2013 energy code be functional for a mix use product.

Good Day,

Jesse
