ROYAL WHOLESALE ELECTRIC wholeheartedly supports the proposed changes that are outlined in the 45-Day Language for 2016 Title 24 Part 6. The proposed language is reasonable and consistent and is a huge improvement over the 2013 Code. The draft language would correct critical oversights in the current Code and will resuscitate the lighting retrofit market that has all but stopped in response to the cost and complexity of implementing the current regulations. These outcomes would yield huge benefits to business owners and operators, contractors, manufacturers and distributors, program implementers and utilities across California.
