Subject: Docket #15-BTSD-01

Title 24 is killing my lighting retrofit job. It is no longer economically viable to reduce lighting energy use and the associated greenhouse gasses by as much as 70% in California. I expect to lose my job within the next few months. I'll have plenty of time on my hands and plan to use it to insure that the geniuses who passed Title 24 (and caved in to big money controls companies) lose their jobs too.
