## **2016 Building Energy Efficiency Standards Lead Commissioner Hearing for 45-Day Language**

**March 2 & 3, 2015**

**California Energy Commission  
Hearing Room A**

**Mazi Shirakh, PE  
Senior Mechanical Engineer  
Project Manager, Building Energy Efficiency Standards**

## 2016 Building Energy Efficiency Standards Lead Commissioner Hearing for 45-Day Language

### **Part 1 - Administrative Regulations**

#### Section 10-103, Permit and Enforcement Requirements:

1. Minor edits to reflect updates for various documents for the 2016 Standards
2. 10-103(b)3 - Maintenance information – Low-rise residential buildings, the information left in the building must include schedule of all interior luminaires and lamps
3. Possible revisions to streamline registration process – See accompanying document

Section 10-109(j) - Alternative Residential Field Verification Protocols – Requires alternative residential field verification protocols shall comply with the application requirements of Section 10-109(b).

Section 10-111 – CERTIFICATION AND LABELING OF FENESTRATION PRODUCTS – No substantive changes, only clarification edits.

Section 10-114 – DETERMINATION OF OUTDOOR LIGHTING ZONES – Added Lighting Zone Zero to Table 10-114-A.

## Existing Language - Certificate of Installation (CF2R):

### 10-103(a)3B

#### Proposed Language:

For all low-rise residential buildings ~~for which compliance requires HERS field verification~~, the person(s) responsible for the Certificate(s) of Installation, or their Authorized Representative(s), shall submit ~~all the~~ following Certificate of Installation documentation that is applicable to the building to a HERS provider data registry for registration and retention in accordance with procedures specified in Reference Residential Appendix RA2:

- i. All Certificates of Installation for which compliance requires HERS field verification.
- ii. All other Certificates of Installation, except those exempted by the Energy Commission.

#### Delegation of Signature Authority:

**Delegation of Signature Authority.** Except where prohibited by law, including but not limited to any requirements under Division 3 of the Business and Professions Code, the *Responsible Person* may delegate signature authority to third parties (*Authorized Representatives*) provided that there is a written agreement:

2016 Building Energy Efficiency Standards Lead Commissioner Hearing for 45-Day Language

- i. Between the *Responsible Person* and the person to be designated as the *Authorized Representative*;
- ii. Specifying that the *Authorized Representative* may sign Certificates of Installation on behalf of the *Responsible Person*, and;
- iii. Specifying that the legal responsibility for construction or installation in the applicable classification for the scope of work specified on the Certificate of Installation document(s) remains with the Responsible Person;
- iv. That is signed by both the *Responsible Person* and the *Authorized Representative*, and;
- v. That is retained by the HERS Provider to which all compliance documents are submitted for the building to which the Certificate of Installation documentation pertains, and;
- vi. That is maintained in the HERS Provider Data Registry such that it is accessible for verification by included but not limited to the Energy Commission and enforcement agencies.
