RE: RPS Eligibility Date

Dear Executive Director:

According to the State Energy Resources Conservation and Development Commission's Resolution No. 14-0422-11, the Walnut Valley Water District (District) is requesting an extension of time to submit a complete application for RPS certification and therefore restore the original RPS eligibility date.

The electrical generation facility for which the District is seeking recertification on is the Terminal Storage – Hydro Generator (previously called Walnut Valley Water District – Unit 1) located at 1071 Ironshoe Ct, Walnut, CA 91789 (RPS ID 60333E, WREGIS ID W301).

Enclosed is a completed Application for Amended Certification. Unfortunately, the District could not submit a timely application due to the expiration notification letter being received on January 9, 2015. In addition, District staff was only recently made aware that the certification would need to be renewed in order to continue generating power.

The District bears no financial consequences but the District desires that the original RPS eligibility date remain on the certificate.

Thank you for your consideration. If you have any questions, please contact the undersigned at Ext. 234.

Very truly yours,

WALNUT VALLEY WATER DISTRICT

Sheryl L. Shaw, P.E.
Engineering Manager & Production Superintendent
