Subject: 2013 California Energy Standards

California Energy Commission

DOCKETED

15-BSTD-01

TN # 75582

APR 06 2015

Dear Commission Members,

We have a 6-level parking structure with a pharmacy on the ground level and office on the 6th level.

I need to bring to your attention the fact that the following controls are not only burdensome and oppressive, but they are not technically feasible;

- a. Manual Area Controls
- b. Multi-Level Controls
- c. Automatic shut-off Controls
- d. Mandatory Daylighting Controls
- e. Demand Response Controls
- * Disaggregation of Electrical Loads

We certainly hope the CEC will correct this unfortunate condition ASAP or at least in the upcoming 2016 California Energy Standards.

Please contact me at the above address or phone number if you require additional information.

Very truly yours,

ATHANS ENTERPRISES, INC.

George A. Athans
Senior Vice President
