Notice of Hearing for Possible Adoption of 2016 Proposed Building Energy Efficiency Standards and Negative Declaration Based on the Initial Study; Availability and Opportunity for Comment on the 15-Day Language and Additional Documents Relied Upon

The California Energy Commission will conduct a hearing during its regularly scheduled May Business Meeting to consider adopting the proposed update to the Building Energy Efficiency Standards in the California Code of Regulations, Title 24, Part 6, the Appendices1 to Part 6, and the associated administrative regulations in Part 1 (collectively also known as the California Energy Code).

1st Floor, Art Rosenfeld Hearing Room

Sacramento, California

Wheelchair Accessible

Concurrent with this notice, the Energy Commission has published modifications to the proposed Building Energy Efficiency Standards in Title 24, Parts 1 and 6, and portions of the Green Building Code in Part 11 (also known as CALGreen), that were previously made available for public comment, and identified additional documents it will rely upon for adoption of these Standards. The modifications to the proposed Standards are known as the "15-Day Language" and are the proposed revisions to the California Energy Code and CALGreen that the Energy Commission will consider adopting.
