

## SECTION 100.1 – DEFINITIONS AND RULES OF CONSTRUCTION

Page 18

**Electrical Power Distribution Systems.** The following definitions **are** intended to apply to Section 130.5 only:

Change **ELECTRICAL POWER DISTRIBUTION SYSTEMS** to all caps to match the format of this Section.

Page 25

**Institutional Tuning** is the process of adjusting the maximum light output of lighting systems to support visual needs or save energy. Institutional tuning differs from personal tuning in that the control strategy is implemented at the institutional **level** rather than the individual user level, and **the** maximum light level adjustments are available only to authorized person**nel**.

Add a definition for:

**Blank Electrical Box**
