

# Docket # 15-BSTD-01

2016 Building Standards Update, and hopefully also 2013 improvement

**What right do CEC employees have keeping their jobs?**

November 9, 2015

Greetings

What right do CEC employees, who developed the lighting retrofit section of this Title 24, to keep their jobs and get paid, when they have killed so many lighting retrofit jobs and put a dagger into energy savings?

This question also applies to Jim Benya, the consultant for the CEC.

Have California tax dollars been wasted paying them?
