WHEREAS, the California Energy Commission is charged with certifying eligible renewable energy resources for purposes of California's Renewables Portfolio Standard (RPS) pursuant to Public Utilities Code section 399.11 et seq. and Public Resources Code section 25740 et seq.; and

WHEREAS, the California Energy Commission has adopted guidelines as set forth in the *Renewables Portfolio Standard Eligibility Guidebook, Eighth Edition* (RPS Guidebook), to address the eligibility requirements and process for certifying electrical generation facilities as eligible renewable energy resources for the RPS pursuant to Public Utilities Code section 399.11 et seq. and Public Resources Code section 25740 et seq.; and

WHEREAS, Section VII.C of the RPS Guidebook establishes an appeal process for applicants and awardees of RPS certification to appeal staff's denial or revocation of RPS certification; and

WHEREAS, the process in Section VII.C of the RPS Guidebook relies in part on the procedures for requesting an investigation pursuant to the California Energy Commission's regulations for complaints and investigations in Title 20, California Code of Regulations, section 1230, et seq.; and

WHEREAS, the California Energy Commission's regulations for complaints and investigations in Title 20, California Code of Regulations, section 1230, et seq. were recently amended with an effective date of January 1, 2016, so it necessary to revise the appeal process in Section VII.C of the RPS Guidebook to reflect the recent amendments to section 1230, et seq., of Title 20; and

WHEREAS, the California Energy Commission's legal office has considered the application of the California Environmental Quality Act (CEQA) to the adoption of staff's recommended revisions to the appeal process in Section VII.C of the RPS Guidebook and concluded that the

adoption of these revisions is exempt from CEQA, because it is not a "project" subject to CEQA pursuant to Title 14, California Code of Regulations, section 15378 (b)(2), in that it deals with the continuation of administrative and maintenance activities related to general policy and procedure making, and because the action is exempt under the "common sense" exception of Title 14, California Code of Regulations, section 15061 (b)(3), where it can be seen with certainty that there is no possibility the action may have a significant effect on the environment; and

WHEREAS, the California Energy Commission has reviewed staff's recommended revisions to the appeal process in Section VII.C of the RPS Guidebook, as shown in Attachment A, and finds that the adoption of these revisions is exempt from CEQA for the reasons concluded by legal counsel, and accepts and approves these revisions for the purpose of implementing the RPS; and

THEREFORE BE IT RESOLVED, the California Energy Commission hereby adopts staff's recommended revisions to the appeal process in Section VII.C of the RPS Guidebook as shown in Attachment A.
