### Background and Purpose

AB 802 revises Public Resources Code Section 25402.10 to require utilities to provide energy consumption data for covered buildings to the owners, owner's agents, or operators of those buildings upon request, and further requires the Energy Commission to establish a benchmarking and public disclosure program for certain buildings. AB 802 went into effect on

January 1, 2016, and repealed the Nonresidential Building Energy Use Disclosure Program implemented by the Energy Commission pursuant to Assembly Bill 1103 (Saldana, Chapter 533, Statutes of 2007).

Energy Commission staff will present an initial proposal to seek early stakeholder input in the development of the draft regulations. Discussion and opportunities to comment will follow the presentation of each section.
