Notice of IEPR Commissioner Workshop on Transportation Fuel Supply Reliability Due to Reduced Natural Gas Availability in Summer 2016

The California Energy Commission Lead Commissioner for the 2016 Integrated Energy Policy Report Update (2016 IEPR Update) will conduct a workshop to discuss potential impacts on California’s transportation fuel production and distribution due to constraints on the operation of the Aliso Canyon natural gas storage facility. The workshop will look at potential impacts during the summer of 2016 resulting from reduced natural gas availability.

Commissioner Karen Douglas is the Lead Commissioner for the 2016 IEPR Update. Energy Commission Chair Robert B. Weisenmiller and Commissioner Janea A. Scott, Lead Commissioner for Transportation also plan to attend the workshop. A quorum of Commissioners from the Energy Commission and Commissioners from the California Public Utilities Commission may be in attendance, but no votes will be taken.

This workshop will be held:

FRIDAY, JUNE 17, 2016
10:00 AM
Doubletree by Hilton Hotel San Pedro
2800 Via Cabrillo Marina
San Pedro, CA 90731
(Madeo Room)

Remote Access Available by Computer or Phone via WebEx™
(Instructions below)

Background
On October 23, 2015, a significant natural gas leak was detected at Southern California Gas' (SoCalGas) Aliso Canyon natural gas storage facility in well Standard Sesnon 25 (SS-25).
With the leak now stopped, there is a moratorium that prohibits the operator of the facility, SoCalGas, from injecting natural gas into the underground reservoir until a comprehensive safety review of the facility is completed. This safety review requires that all 114 wells in the facility are either thoroughly tested for safe operation or removed from operation and isolated from the underground reservoir. The implementation of these safety measures means that the Aliso Canyon facility is not operating as it normally does to provide gas for the energy demands in the Greater Los Angeles area.

The Energy Commission, California Public Utilities Commission (CPUC), California Independent System Operator (California ISO) and the Los Angeles Department of Water and Power (LADWP) collaborated to develop a technical assessment of energy impacts stemming from the current gas supply limitations of Aliso Canyon. The joint agencies presented an Action Plan at an April 8, 2016 workshop and based on public comments released an Updated Action Plan on May 27, 2016. The Revised Action Plan identifies 21 mitigation measures to reduce but not eliminate the risk of gas curtailments.

Transportation fuel production and distribution is a critical component of the California economy, and the refineries may be impacted by the increased risk of natural gas and electric curtailments while Aliso Canyon operations are constrained. The Energy Commission will explore potential impacts on transportation fuel production and distribution as well as additional mitigation strategies that may be implemented to minimize impacts of natural gas or electric curtailments on California refineries.

The Energy Commission will explore potential impacts on transportation fuel production and distribution as well as additional mitigation strategies that may be implemented by refineries to minimize or help buffer them from possible natural gas or electric curtailments.

**Agenda**

This workshop will convene experts to discuss possible impacts potential curtailments due to reduced natural gas availability may have on refinery operations and transportation fuel supply reliability. Topics will include:

- Background on natural gas and electricity reliability concerns while Aliso Canyon operations are constrained.
- Uses of natural gas at refineries and uses of electricity in transportation fuel production and distribution.
- Updates on California’s current curtailment plans with regard to natural gas and electricity.
- Discussion of potential curtailment impacts to refineries and possible mitigation and demand reduction strategies refiners may implement during times of reduced natural gas and electricity availability.

The workshop will end with a public comment period.
Public Comment

Oral comments: The Energy Commission will accept oral comments at the workshop. Comments may be limited to three minutes per speaker. Any comments will become part of the public record in this proceeding.

Written comments: Written comments should be submitted to the Dockets Unit by 5:00 p.m. on Thursday, July 7, 2016. All written comments will become part of the public record of this proceeding.

For the 2016 IEPR Update, the Energy Commission is using an electronic commenting system. Visit the website at [http://www.energy.ca.gov/2016_energypolicy/](http://www.energy.ca.gov/2016_energypolicy/) and click on the "Submit e-Comment" link in the "Proceeding Information" box. From the drop down menu, please select the appropriate docket number. For this workshop, please select docket 16-IEPR-02 – Natural Gas.

This will take you to the page for adding comments to that docket. Please enter your contact information and comment title. Under “subject(s),” select the appropriate IEPR workshop date and “IEPR public comments.” You may include comments in the box titled “Comment Text” or attach a file with your comments. Attached comments must be in a Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf) formatted file.

The Energy Commission encourages use of its electronic commenting system, but written comments may also be submitted by e-mailing them to the Dockets Office, or by U.S. Mail to:

California Energy Commission
Dockets Office, MS-4
Re: Docket No. 16-IEPR-02
1516 Ninth Street
Sacramento, CA 95814-5512

If you choose not to use the electronic filing system, please include the appropriate docket number on any e-mailed or written comments. Comments may be e-mailed to docket@energy.ca.gov and copy the technical lead, Ryan Eggers, by e-mail at ryan.eggers@energy.ca.gov.

Please note that your electronic, e-mailed, written and oral comments, attachments, and associated contact information (for example, address, phone, and e-mail) become part of the viewable public record. Additionally, this information may become available via Google, Yahoo, and other search engines.
Public Adviser and Other Commission Contacts

The Energy Commission's Public Adviser's Office provides the public assistance in participating in Energy Commission proceedings. If you want information on how to participate in this forum, please contact the Public Adviser, Alana Mathews, by e-mail at PublicAdviser@energy.ca.gov or (916) 654-4489, or toll free at (800) 822-6228.

If you have a disability and require assistance to participate, please contact Lou Quiroz by e-mail at lou.quiroz@energy.ca.gov or (916) 654-5146 at least five days in advance.

Media inquiries should be sent to the Media and Public Communications Office by e-mail at mediaoffice@energy.ca.gov or (916) 654-4989.

If you have questions on the subject matter of this workshop, please contact Ryan Eggers at ryan.eggers@energy.ca.gov or (916) 651-2920. For general questions regarding the IEPR proceeding, please contact Raquel Kravitz, IEPR project manager, by e-mail at raquel.kravitz@energy.ca.gov or (916) 651-8836.

The service list for the 2016 IEPR Update is handled electronically. Notices and documents for this proceeding are posted to the Energy Commission website at www.energy.ca.gov/2016_energypolicy/.

When new information is posted, an e-mail will be sent to those on the energy policy e-mail listserv. We encourage those who are interested in receiving these notices to sign up for the listserv through the website at www.energy.ca.gov/listservers/index.html. The listserv is titled "energypolicy."

Remote Attendance

You may participate in this workshop through WebEx, the Energy Commission's online meeting service. Presentations will appear on your computer screen, and you may listen to audio via your computer or telephone. Please be aware that the meeting may be recorded.

To join a meeting:

VIA COMPUTER: Go to https://energy.webex.com and enter the unique meeting number: 924 704 440. When prompted, enter your name. This workshop does not require a password.

The "Join Conference" menu will offer you a choice of audio connections:

1. To call into the meeting: Select "I will call in" and follow the on-screen directions.
2. International Attendees: Click on the "Global call-in number" link.
3. To have WebEx call you: Enter your phone number and click "Call Me."
4. To listen over the computer: If you have a broadband connection, and a headset or a computer microphone and speakers, you may use VoIP (Internet audio) by going to the Audio menu, clicking on “Use Computer Headset,” then “Call Using Computer.”

VIA TELEPHONE ONLY (no visual presentation): Call (866) 469-3239 (toll-free in the United States and Canada). When prompted, enter the unique meeting number: 924 704 440. International callers may select their number from https://energy.webex.com/energy/globalcallin.php.

VIA MOBILE ACCESS: Access to WebEx meetings is now available from your mobile device. To download an app, go to www.webex.com/products/web-conferencing/mobile.html.

If you have difficulty joining the meeting, please call the WebEx Technical Support number at (866) 229-3239.

Availability of Documents
Documents and presentations for this meeting will be available online at: www.energy.ca.gov/2016_energypolicy/documents/.
