Background

Senate Bill 350 (SB 350) requires California’s POUs with annual electricity demand exceeding 700 gigawatt hours to develop and adopt IRPs by January 1, 2019. The IRPs must discuss how each POU
plans to meet greenhouse gas reduction targets established by the California Air Resources Board, and identify procurement plans of at least 50 percent renewable energy resources by 2030. SB 350 requires that the POU IRPs also address their procurement plans for electrification of the transportation sector within their service territory. The IRPs must be submitted to the Energy Commission to review for consistency with the legislative requirements. To facilitate review of the IRPs, SB 350 authorizes the Energy Commission to adopt guidelines that will provide a framework for the information and data to be submitted by POUs.

The purpose of this workshop is to provide the Energy Commission, POUs, and other stakeholders an opportunity to discuss transportation electrification for the light-duty vehicle sector. The workshop will support the Energy Commission in developing IRP guidelines specific to transportation electrification, provide an opportunity for POUs and other stakeholders to provide input and inform the development of the guidelines, and to discuss and comment on the transportation electrification section of the Energy Commission's draft staff paper Proposed Guideline Topics for Publicly Owned Utilities’ Integrated Resource Plans.

Agenda

The workshop will include presentations and panel discussions related to the transportation electrification IRP requirements, with a focus on the light-duty vehicle sector. There will be presentations and panel discussions that include representatives from state government, POUs, and other industry stakeholders. Specifically, representatives will discuss California’s transportation electrification policies, scenarios for future penetration of zero emission vehicles, interconnecting high power charging loads, and POU activities to plan for and facilitate light-duty electric vehicle adoption.

Public Comment

**Oral Comments:** Commissioners will accept oral comments during the workshop. Public comments may be limited to three minutes or less per speaker. Any comments will become part of the public record in this proceeding.

**Written Comments:** Written comments should be submitted to the Dockets Unit by 5:00 p.m. on April 28, 2017. All written comments will become part of the public record of this proceeding.

For the 2017 IEPR, the Energy Commission is using an electronic commenting system. Visit the website at [http://www.energy.ca.gov/2017_energypolicy/](http://www.energy.ca.gov/2017_energypolicy/) and click on the “Submit e-Comment” link in the “Proceeding Information” box. From the drop down menu, please select the appropriate docket number. For this workshop, please select docket 17-IEPR-07 – Integrated Resource Planning.

This will take you to the page for adding comments to that docket. Please enter your contact information and comment title. Under “subject(s),” select the appropriate IEPR workshop date, “IEPR 2017-04-18 Workshop” and “IEPR public comments.” You may include comments in the box titled “Comment Text” or attach a file with your comments. Attached comments must be in a Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf) formatted file.

The Energy Commission encourages use of its electronic commenting system, but written comments may also be submitted by e-mailing them to the Dockets Office, or by U.S. Mail to:
If you choose not to use the electronic filing system, please include the appropriate docket number on any e-mailed or written comments. Comments may be e-mailed to docket@energy.ca.gov and copy the technical lead, Noel Crisostomo by e-mail at noel.crisostomo@energy.ca.gov.

Please note that your electronic, e-mailed, written and oral comments, attachments, and associated contact information (for example, address, phone, and e-mail) become part of the viewable public record. Additionally, this information may become available via search engines such as Google and Yahoo.
