) California

Notice of Joint Agency Workshop on Energy Reliability in Southern California

The California Energy Commission, the California Public Utilities Commission (CPUC), the California Independent System Operator (California ISO), and Los Angeles Department of Water and Power (LADWP) will jointly hold a workshop to discuss energy reliability in Southern California. The workshop is being conducted as part of the *2017 Integrated Energy Policy Report (IEPR)* proceeding.

The Lead Commissioner for the *2017 IEPR*, Robert B. Weisenmiller, will conduct the workshop jointly with the CPUC, California ISO, and LADWP. Other Commissioners at the Energy Commission and the CPUC may also attend and participate in the workshop. A quorum of Commissioners from the CPUC and/or the Energy Commission may be in attendance, but no votes will be taken.

Monday, May 22, 2017

10:00 a.m.

SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT
21865 Copley Drive
Auditorium
Diamond Bar, CA, 91765
(Wheelchair Accessible)

Remote Access Available by Computer or Phone via WebEx™

For details, go to www.energy.ca.gov/webcast.

Background

A primary responsibility of California's energy agencies is to maintain the reliability of the state's energy system, including electricity and gas. A reliable energy supply supports a well-functioning economy whereas disruptions have the potential to put public health and safety at risk and to cause negative economic consequences to businesses and economic activity.

Southern California has suffered from two major disruptions to its energy infrastructure in recent years that have required rapid, sustained, and coordinated response by state and local agencies, balancing authorities, utilities, and others to maintain energy reliability. Southern California's electricity system was first challenged by the unexpected shutdown of the San Onofre Nuclear

Generating Station (San Onofre) in 2012, which was compounded by the planned closure of several natural gas plants in Southern California. More recently, the massive leak from the Aliso Canyon natural gas storage facility in late 2015 has created a major disruption and strain to the supply of natural gas particularly for meeting winter heating needs and summer electricity generation for air conditioning, among other uses. As part of the *2016 IEPR*, the joint agencies developed action plans to address energy reliability in the summer and winter of 2016 and extending into 2017. Both situations require ongoing work to ensure reliability of California's energy system in the near-term and will be addressed at this workshop.

The Energy Commission is addressing these issues as part of the 2017 IEPR, consistent with the scoping order for the report.¹ Discussion of the role of gas storage facilities and natural gas infrastructure in the state's long-term greenhouse gas reduction strategies and climate change goals is not a topic of this workshop. Those issues, and the long-term use of the Aliso Canyon natural gas storage facility, will be addressed in the CPUC (Order Instituting Investigation (I.17-02-002)).

Agenda

The agenda includes staff presentations on Southern California reliability issue updates and tracking progress on conventional generation, preferred resources, transmission upgrades, and contingency mitigation measures from the Energy Commission, Southern California Edison, San Diego Gas and Electric, and the California ISO. Following a break for lunch there will be a joint agency presentation on reliability issues associated with the constrained operations at the Aliso Canyon Natural Gas Storage Facility and mitigation measures to address those issues. This presentation will be given by representatives from the CPUC, California ISO, Energy Commission, LADWP, and Aspen Environmental. Southern California Gas will present its assessment and actions it is taking to address energy reliability, and a representative from Los Alamos National Laboratory will provide a third party review. Closing out the agenda will be a panel discussion on ongoing reliability issues and mitigation measures to address those issues by key stakeholders.

A detailed schedule will be posted prior to the workshop at:
http://www.energy.ca.gov/2017_energypolicy/.

Public Comment

Oral Comments: Oral comments will be accepted during the workshop. Public comments may be limited to three minutes or less per speaker. Any comments will become part of the public record in the Energy Commission's IEPR proceeding.

Written Comments: Written comments must be submitted to the Dockets Unit by 5:00 p.m. on **June 5, 2017**. Written comments will also be accepted at the workshop; however, Energy Commission staff may not have time to review them before the conclusion of the workshop. All written comments will become part of the public record of this proceeding.

For the 2017 IEPR, the Energy Commission is using an electronic commenting system. Visit the website at http://www.energy.ca.gov/2017_energypolicy/ and click on the “**Submit e-Comment**” link in the “Proceeding Information” box. From the drop down menu, please select the appropriate docket number. For this workshop, please select docket **17-IEPR-11 – Southern California Energy Reliability**.

This will take you to the page for adding comments to that docket. Please enter your contact information and comment title. Under “subject(s),” select “**IEPR 2017-05-22 Workshop**” and “**IEPR public comments**.” You may include comments in the box titled “Comment Text” or attach a file with your comments. Attached comments must be in a Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf) formatted file.

The Energy Commission encourages use of its electronic commenting system, but written comments may also be submitted by e-mailing them to the Dockets Office, or by U.S. Mail to:

California Energy Commission
Dockets Office, MS-4
Re: Docket No. 17-IEPR-07
1516 Ninth Street
Sacramento, CA 95814-5512

If you choose not to use the electronic filing system, please include the appropriate docket number on any e-mailed or written comments. Comments may be e-mailed to docket@energy.ca.gov and copy the technical lead, Lana Wong, by e-mail at Lana.Wong@energy.ca.gov.

Please note that your electronic, e-mailed, written and oral comments, attachments, and associated contact information (for example, address, phone, and e-mail) become part of the viewable public record. Additionally, this information may become available via Google, Yahoo, and other search engines.

Public Adviser and Other Commission Contacts

The Energy Commission’s Public Adviser’s Office provides the public assistance in participating in Energy Commission proceedings. If you want information on how to participate in this forum, please contact the Public Adviser, Alana Mathews, by e-mail at PublicAdviser@energy.ca.gov or (916) 654-4489, or toll free at (800) 822-6228.

If you have a disability and require assistance to participate, please contact Poneh Jones by e-mail at poneh.jones@energy.ca.gov or (916) 654-4425 at least five days in advance.

Media inquiries should be sent to the Media and Public Communications Office by e-mail at mediaoffice@energy.ca.gov or (916) 654-4989.

If you have questions on the technical subject matter of this meeting, please contact Lana Wong at Lana.Wong@energy.ca.gov. For general questions regarding the IEPR proceeding, please contact Raquel Kravitz, IEPR project manager, by e-mail at raquel.kravitz@energy.ca.gov or (916) 651-8836.

The service list for the 2017 IEPR is handled electronically. Notices and documents for this proceeding are posted to the Energy Commission website at http://www.energy.ca.gov/2017_energypolicy/.

When new information is posted, an e-mail will be sent to those on the energy policy e-mail listserv. We encourage those who are interested in receiving these notices to sign up for the listserv through the website at <http://www.energy.ca.gov/listservers/index.html>.

The listserv is titled “energypolicy.”

Remote Attendance

You may participate in this meeting through WebEx, the Energy Commission's online meeting service. Presentations will appear on your computer screen, and you may listen to the audio via your computer or telephone. Please be aware that the meeting will be recorded.

To join the online event:

VIA COMPUTER. [Click here](#) to join the online event.

Or copy and paste the following link to a browser:

<https://energy.webex.com/energy/onstage/g.php?MTID=ef51217d4d02bedbbff62d1088c1a1aed>

Event Number: **922 676 812**

Click "Join Now". The “Join Now” menu will offer you a choice of audio connections:

1. To call into the meeting: Select "I will call in" and follow the on-screen directions.
2. International Attendees: Click on the "Global call-in number" link.
3. To have WebEx call you: Enter your phone number and click "Call Me.”
4. To listen over the computer: If you have a broadband connection, and a headset or a computer microphone and speakers, you may use VoIP (Internet audio) by going to the Audio menu, clicking on “Use Computer Headset,” then “Call Using Computer.”

VIA TELEPHONE ONLY (no visual presentation): Call (866) 469-3239 (toll-free in the U.S. and Canada). When prompted, enter the unique meeting number: **922 676 812**

. International callers may select their number from

<https://energy.webex.com/energy/globalcallin.php>.

VIA MOBILE ACCESS: Access to WebEx meetings is now available from your mobile device. To download an app, go to www.webex.com/overview/mobile-meetings.html.

If you have difficulty joining the meeting, please call the WebEx Technical Support number at (866) 229-3239.

Availability of Documents

Energy Commission documents and presentations for this meeting will be available online at http://www.energy.ca.gov/2017_energypolicy/.

Date:

ROBERT B. WEISENMILLER
Chair and Lead Commissioner of 2017 IEPR
California Energy Commission

LIANE B. RANDOLPH
Commissioner
California Public Utilities Commission

TOM DOUGHTY
Vice President, Customer and State Affairs
California Independent System Operator

REIKO A. KERR
Senior Assistant General Manager
Power System Engineering, Planning, and Technical Services
Los Angeles Department of Water and Power

Mail Lists: energypolicy, electricity
