Notice of Availability
New Solar Homes Partnership Guidebook
Tenth Edition
CEC-300-2017-047-ED10-CMF-REV
Docket No. 16-NSHP-01

The California Energy Commission adopted the *New Solar Homes Partnership Guidebook, Tenth Edition (Revised)* at its May 10, 2017, Business Meeting. The *NSHP Guidebook, Tenth Edition (Revised)* incorporates updates to the reservation application and payment claim processes to accommodate the transition to the Financial Information System for California (Fi\$Cal) on July 1, 2017. This new accounting system is being implemented statewide for all State of California agencies and departments, and will affect the Energy Commission's budgeting, accounting, procurement, and cash management processes. To comply with the Fi\$Cal accounting system, a current STD-204 form must be on file at time of reservation application approval for any payee designated to receive an NSHP incentive. The NSHP application process has been revised in this version of the NSHP Guidebook to require the STD-204 form to be submitted at time of reservation. In addition, minor changes have been made to the Established Installer Reservation Form and the Incentive Disclosure Affidavit that satisfy the requirements listed in the NSHP Guidebook.

The *NSHP Guidebook* describes the requirements for participating in NSHP and receiving incentives for installing eligible solar energy systems on new residential construction located in specified investor-owned utility territories. The effective date of the *NSHP Guidebook, Tenth Edition (Revised)*, is May 10, 2017.
