## Notice of IEPR Commissioner Workshop on the 2018 California Energy Demand Forecast Update

The California Energy Commission will hold a workshop to propose and discuss updates to the adopted *2017 IEPR* energy demand forecast. Energy Commission staff will review the scope and method for the update, present the most recent data available for key forecast drivers, propose scenarios, and outline additional work that will be considered for the full *2019 IEPR* forecast.

Commissioner David Hochschild is the Lead Commissioner for the *2018 Integrated Energy Policy Report Update (2018 IEPR Update)*. Robert B. Weisenmiller, the Chair of the Energy Commission and Lead Commissioner for electricity and natural gas, will conduct the meeting. A quorum of commissioners from the California Public Utilities Commission (CPUC) or the Energy Commission may be attending, but no votes will be taken.

### Background

The Energy Commission provides 10-year forecasts for electricity and natural gas demand every two years as part of the IEPR process. The IEPR forecasts are used in resource and system planning proceedings, including the Integrated Resource Planning process

conducted by the CPUC and the Transmission Planning Process conducted by the California Independent System Operator (California ISO).

The Energy Commission, CPUC, and California ISO are committed to working collaboratively across these proceedings, in part by agreeing to use a single set of demand forecasts. To avoid providing stale inputs into any of these critical planning processes, the Energy Commission updates the most recently-adopted IEPR forecast as part of the IEPR update process. The forecast update is limited in scope, retaining most of the characteristics of the IEPR forecast, but reflecting newly available load data, economic assessments, and projections of key demand modifiers.

## Agenda

Energy Commission staff will make presentations describing:

- The overall process used to update the forecast
- Preliminary changes to key economic drivers
- Plans for revising projections of light-duty electric vehicle and behind-the-meter photovoltaic adoption
- Improvements planned to the Energy Commission's hourly demand model
- The implications of new and expanding community choice aggregation

Representatives from investor-owned utilities will discuss their outlook on community choice aggregation.

Finally, Energy Commission staff will outline improvements planned for the *IEPR 2019* forecast. There will be an opportunity for public comments at the end of the workshop as noted below. The workshop is expected to end in the early afternoon.

A detailed meeting schedule will be posted prior to the workshop at [http://www.energy.ca.gov/2018\\_energypolicy/](http://www.energy.ca.gov/2018_energypolicy/).

## Public Comment

**Oral Comments:** Commissioners will accept oral comments at the end of the workshop. Public comments may be limited to three minutes or less per speaker and to one person per organization. Any comments will become part of the public record in this proceeding.

**Written Comments:** Written comments should be submitted to the Dockets Unit by **5:00 p.m. on July 24, 2018**. All written comments will become part of the public record of this proceeding.

**For the 2018 IEPR Update, the Energy Commission is using an electronic commenting system.** Visit the website at [http://www.energy.ca.gov/2018\\_energypolicy/](http://www.energy.ca.gov/2018_energypolicy/) and click on the “**Submit e-Comment**” link in the “Proceeding Information” box. From the

drop down menu, select the appropriate docket number. For this workshop, select docket **18-IEPR-04 – Energy Demand Forecast Update**.

This will take you to the page for adding comments to that docket. Please enter your contact information and comment title. Under “subject(s),” select “**IEPR Public Comments**.” You may include comments in the box titled “Comment Text” or attach a file with your comments. Attached comments must be in a Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf) formatted file.

The Energy Commission encourages use of its electronic commenting system, but written comments may also be submitted by emailing them to the Dockets Office, or by U.S. Mail to:
