## SETTLEMENT AGREEMENT AND RELEASE

This Settlement Agreement and Release (Agreement) is entered into between the California Energy Commission (Commission), with its principal office at 1516 Ninth Street, Sacramento, California 95814, and Le Cache Premium Wine Cabinets (Le Cache), with a place of business at 1445 N. McDowell Boulevard, Petaluma, California 94954, collectively referred to as the Parties.

### I. RECITALS

(1) The Commission's Appliance Efficiency Regulations at California Code of Regulations, Title 20, Article 4, sections 1601-1609 (Appliance Efficiency Regulations),<sup>1</sup> set forth the requirements to sell or offer for sale regulated appliances in California. The pertinent requirements include:

- Testing: The appliance is tested as required in 1603, using the applicable test method set forth in section 1604.
- Efficiency: The appliance meets the required efficiency standards set forth in section 1605.3.
- Marking: The appliance is correctly marked and labeled as required under section 1607.
- Certification: The appliance is certified to the Commission and appears in the Commission's most recent Appliance Efficiency Database (Database) as required under section 1606.

(2) The Commission's enforcement authority includes the removal of non-complying appliances from the Database, as set forth in section 1608, and the issuance of administrative civil penalties under section 1609.

(3) Le Cache manufactures several models of wine cabinets (wine chillers) that it sells or offers for sale in California either directly or through retailers or distributors.

(4) Le Cache wine chillers are subject to the testing, efficiency, marking, and certification requirements for this appliance class as described in paragraph I(1) above.

(5) From July 2015 to July 2017, Le Cache sold or offered for sale through retailers or distributors approximately 44 units of wine chillers in California that were not listed in the Database as required in section 1606.

(6) Based on the above Recitals, the Commission, through adjudication, could impose penalties for each violation alleged, obtain injunctive relief to prohibit Le Cache from continuing to sell or offer for sale, non-compliant wine chillers in California and take any other enforcement action as allowed by law.

<sup>1</sup> All references are to California Code of Regulations, Title 20, Article 4, unless otherwise specified.

(7) Section 1609(b)(3) and California Public Resources Code section 25402.11(a)(2) identify the following factors the Commission shall consider when determining the amount of an administrative civil penalty:

- The nature and seriousness of the violation.
- The persistence of the violation, meaning a responsible person's history of past violations of the Appliance Efficiency Regulations over the previous seven years.
- The number of violations arising from the course of conduct that is subject of the enforcement proceeding.
- The length of time over which the violation occurred.
- The willfulness of the persons responsible for the violation.
- The harm to consumers and to the state that resulted from the amount of energy wasted due to the violation.
- The number of persons responsible for the violation.
- The efforts of the persons responsible for the violation to correct the violation prior to initiation of an enforcement action by the Energy Commission.
- The cooperation, by the persons responsible for the violation, with the Energy Commission during its investigation.
- The assets, liabilities, and net worth of the persons responsible for the violation. This information will be considered to reduce the administrative civil penalty amount, should a responsible person or persons elect to provide asset, liability, and net worth documentation to the Executive Director to demonstrate that a reduction in a penalty amount is necessary to avoid an undue burden.

(8) Penalties must be set at levels sufficient to deter violations. In developing this Agreement the Commission considered the facts of the case and applied the above factors to determine an appropriate settlement. Further, in this case Le Cache cooperated with the Commission in the investigation by promptly removing the non-compliant units from the California market; redesigning their products; promptly testing and certifying the units; and by providing to the Commission sales data of non-compliant units. The efforts by Le Cache saved the Commission time and resources in investigating the violations and minimized the impacts on the competitive business environment in California from the non-compliant units.

(9) Le Cache is willing to enter into this Agreement solely for the purpose of settlement and resolution of this matter with the Commission. The Commission accepts this Agreement in termination of this matter. Accordingly, the Parties agree to resolve this matter completely by means of this Agreement, without the need for adjudication.
