June 28, 2019

Mr. Martin Caballero
Resource Planning and Development Manager
Modesto Irrigation District
1235 11th Street
Modesto, California 95354

Dear Mr. Caballero:

As required by Senate Bill 350 (de León, Chapter 547, Statutes of 2015 (SB 350) in the Public Utilities Code (PUC) Section 9622) the California Energy Commission has reviewed Modesto Irrigation District's *2019 Integrated Resource Plan filing* (IRP), which was received on March 5, 2019. The Energy Commission informed Modesto Irrigation District on March 25, 2019, that the IRP filing was complete, as requested by Chapter 3, Section B.1 of the *Publicly Owned Utilities' Integrated Resource Plan Guidelines (POU IRP Guidelines)*.¹

Based on a detailed review and analysis of the Modesto Irrigation District IRP, the standardized tables, and other supporting information, I have determined that the Modesto Irrigation District IRP is consistent with PUC Section 9621 requirements, and meets California's energy and other policy goals, including:

- Achieving greenhouse gas emission reduction targets commensurate with the electricity sector's percentage of economy wide reductions of 40 percent from 1990 levels by 2030.
- Meeting the renewables portfolio standard of 50 percent by 2030.
- Ensuring planning goals related to retail rates, reliability, transmission and distribution systems, localized air pollution, and disadvantaged communities.
- Considering the role of renewable resources, grid efficiencies, energy storage, and distributed resources in meeting peak demand.
- Addressing procurement of energy efficiency and demand response, energy storage, transportation electrification, and portfolio diversification.

¹ See: <http://www.energy.ca.gov/sb350/IRPs/index.html>.

Mr. Martin Caballero

The docketed staff paper, Review of Modesto Irrigation District *Integrated Resource Plan filing*, provides the details of the Energy Commission's review and findings regarding the consistency of the Modesto Irrigation District IRP with PUC Section 9621. The Energy Commission anticipates considering adoption of this determination at an Energy Commission business meeting in September 2019.

If you have any questions regarding this determination, please contact Brian McCollough at Brian.McCollough@energy.ca.gov or 916-653-1648.

Sincerely,

Drew Bohan
Executive Director
