**Description:**

Tuesday, July 30, 2019, 10:00 a.m. The California Energy Commission will jointly conduct a workshop with the California Public Utilities Commission (CPUC) and the California Air Resources Board (ARB) to discuss the status of implementing the recommendations developed in the Low-Income Barriers Study Part A: Overcoming Barriers to Energy Efficiency and Renewables for Low-Income Customers and Small Business Contracting Opportunities in Disadvantaged Communities and the Low-Income Barriers Study Part B: Overcoming Barriers to Clean Transportation Access for Low-Income Residents. The workshop will also provide an opportunity to identify additional actions to advance energy equity and explore emerging energy equity topics within the context of the objectives set forth in Senate Bill (SB) 350 (De León, Chapter 547, Statutes of 2015) and California’s goal to reduce greenhouse gas (GHG) emissions.

Notice of IEPR Joint Agency Workshop on Advancing Energy Equity

The California Energy Commission will jointly conduct a workshop with the California Public Utilities Commission (CPUC) and the California Air Resources Board (ARB) to discuss the status of implementing the recommendations developed in the Low-Income Barriers Study Part A: Overcoming Barriers to Energy Efficiency and Renewables for Low-Income Customers and Small Business Contracting Opportunities in Disadvantaged Communities and the Low-Income Barriers Study Part B: Overcoming Barriers to Clean Transportation Access for Low-Income Residents. The workshop will also provide an opportunity to identify additional actions to advance energy equity and explore emerging energy equity topics within the context of the objectives set forth in Senate Bill (SB) 350 (De León, Chapter 547, Statutes of 2015) and California’s goal to reduce greenhouse gas (GHG) emissions.

Vice Chair Janea A. Scott is the lead commissioner for the 2019 Integrated Energy Policy Report (2019 IEPR). Vice Chair Scott will jointly conduct this workshop with Commissioners Karen Douglas and Andrew McAllister of the Energy Commission, Commissioners Martha Guzman-Aceves, Cliff Rechtschaffen, and Genevieve Shiroma of the CPUC, and Richard Corey, Executive Officer of ARB. A quorum of commissioners may be in attendance, but no votes will be taken.

Tuesday, July 30, 2019
10:00 a.m.
Warren-Alquist State Energy Building
Art Rosenfeld Hearing Room, First Floor
1516 Ninth Street, Sacramento, California 95814
(Wheelchair Accessible)

Remote access is available by computer or phone via WebEx.™
For details, go to https://energy.webex.com/
Agenda

The workshop will open with a panel of state agency representatives reporting on the implementation status of the recommendations in the Low-Income Barriers Study Part A and Part B. The panel will include staff from the Energy Commission, CPUC, ARB, California Department of Community Services and Development, California Alternative Energy and Advanced Transportation Financing Authority, and California Workforce Development Board.

The workshop will also include two panel discussions with environmental justice and community-based organizations, academics, and others with relevant knowledge on the issues affecting low-income customers, disadvantaged communities, and clean energy and transportation opportunities. One panel will discuss additional actions and strategies that state agencies could be prioritizing moving forward to advance energy equity in disadvantaged communities, including, but not limited to, boosting community engagement, increasing access to incentives for low-income multifamily building energy efficiency retrofits, development of tariff on-bill financing programs, and launching a regional climate collaborative and comprehensive technical assistance program. The other panel will explore emerging energy equity topics in clean energy and transportation, including low-income customer access to, and potential impacts from, building decarbonization, energy storage, and transportation electrification.

A detailed meeting schedule will be posted prior to the workshop at: http://www.energy.ca.gov/2019_energypolicy/.

Background

SB 350, set two objectives in clean energy, clean air, and pollution control for 2030: increase the requirement for renewable electricity procurement to 50 percent and double projected future energy efficiency savings for both electricity and natural gas. SB 32 (Pavley, Chapter 249, Statutes of 2016) set a statewide goal to reduce California’s GHG emissions 40 percent below 1990 levels by 2030. SB 197 (Garcia, Chapter 250, Statutes of 2016) requires that the state’s implementation of its GHG emission reduction goals be transparent and equitable, with the benefits reaching disadvantaged communities.

SB 350 found that there was insufficient understanding of the barriers to access for low-income customers and disadvantaged communities to renewable energy generated in the state, energy efficiency investments, and zero-emission and near-zero emission transportation options, as well as contracting opportunities for small businesses located in disadvantaged communities. For this reason, SB 350 directed the Energy Commission and ARB to identify barriers and develop recommendations for increasing access for low-income customers and disadvantaged communities in those areas. As a result, the Energy Commission and ARB developed the Low-Income Barriers Study, Part A and Low-Income Barriers Study, Part B, respectively.
The Low-Income Barriers Study, Part A, was published in December 2016, and is available at https://www.energy.ca.gov/sb350/barriers_report/.

The Energy Commission’s Low-Income Barriers Study, Part A, contains 12 recommendations that encourage state agencies to pursue promising approaches to addressing the challenges faced by low-income customers, including those in disadvantaged communities, in accessing clean energy and its associated benefits. ARB’s Low-Income Barriers Study, Part B, identifies six priority recommendations that most directly address the barriers low-income residents (including those in disadvantaged communities) face to access zero-emission and near-zero emission transportation and mobility options.

Since the passage of SB 350, state agencies have been implementing programs to address the barriers and increase access to clean energy and transportation for low-income residents and disadvantaged communities, which maximize public health and economic benefits. With the enactment of more recent bills, including SB 100 (De León, Chapter 310, Statutes of 2018), which accelerated the renewables goal to 60 percent by 2030 and codified the state’s commitment to a near carbon-free electricity sector by 2045, the Energy Commission seeks to identify additional actions needed to dramatically reduce GHG emissions while making sure that low-income and disadvantaged communities share the benefits of a transformed energy sector.

Public Comment

Oral Comments: Commissioners will accept oral comments at the end of the workshop. Public comments may be limited to three minutes or less per speaker and to one person per organization. If participating via WebEx, use the “raise hand feature” so the administrator can introduce you and unmute your microphone after comments from the floor.

Written comments. Written comments must be submitted to the Dockets Unit by 5:00 p.m. on August 13, 2019.

Written and oral comments, attachments, and associated contact information (including address, phone number, email address) will become part of the public record of this proceeding with access available via any internet search engine.

For the 2019 IEPR, the Energy Commission encourages use of its electronic commenting system. Visit https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=19-IEPR-05, which links to the comment page for this docket. Select or enter a proceeding to be taken to the “Add Comment” page. Enter your contact information and a comment title
describing the subject of your comment(s). Comments may be included in the “Comment Text” box or attached as a downloadable, searchable in Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf) file. Maximum file size is 10 MB.

Written comments may also be submitted by email or mail if you choose not to use the electronic filing system. Include the docket number 19-IEPR-05 and “Energy Equity” in the subject line and send to docket@energy.ca.gov.

If preferred, a paper copy may be sent to:

Public Adviser and Other Commission Contacts

The Energy Commission’s Public Adviser’s Office provides the public assistance in participating in Commission proceedings. For information on how to participate in this forum, please contact Acting Public Adviser, Jennifer Martin-Gallardo, at publicadviser@energy.ca.gov (916) 654-4489, or toll free at (800) 822-6228.

Please direct requests for reasonable accommodation to Yolanda Rushin at yolanda.rushin@energy.ca.gov or (916) 654-4310 at least five days in advance.

Media inquiries should be directed to the Media and Public Communications Office at mediaoffice@energy.ca.gov or (916) 654-4989.

Questions on the technical subject matter of this meeting should be directed to Linda Barrera at linda.barrera@energy.ca.gov or (916) 651-2924.

For general questions regarding the IEPR proceeding, please contact Raquel Kravitz at raquel.kravitz@energy.ca.gov or (916) 651-8836.

Remote Attendance

WebEx is the Energy Commission’s online meeting service. When attending remotely, presentations will appear on your computer/laptop/mobile device screen, and audio may be heard via the device or telephone. Please be aware that the WebEx meeting may be recorded. WebEx technical support is available at (866) 229-3239.

**Via Computer:** Go to https://energy.webex.com/ec. If this event is listed, click “Join” if not, click “Unlisted Events” on the left of the screen and enter Event Number 924 105 979. When prompted, enter your name and email address. No password is needed.

The “Join Conference” menu will offer you a choice of audio connections:
1. To call into the meeting, select "I will call in" and follow the on-screen directions.
2. International attendees, select "Global call-in number."
3. To have WebEx call you, enter your phone number and click “Call Me.”
4. For Internet audio: If you have a broadband connection, a headset, or a computer microphone and speakers, you may use VoIP (Internet audio). Go to the audio menu and click “Use Computer Headset,” then “Call Using Computer.”

Via Telephone Only: (no visual presentation): Dial (866) 469-3239 (toll-free in the U.S. and Canada) and when prompted, enter the Event Number (from above). International callers may select a number from https://energy.webex.com/energy/globalcallin.php.

If you have difficulty joining the meeting, please call the WebEx Technical Support number at (866) 229-3239.

Availability of Documents
Documents and presentations for this meeting will be available online at https://www.energy.ca.gov/2019_energypolicy/documents/ or https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=19-IEPR-05.

When new information is posted, an email will be sent to those on the energypolicy listserv. Those interested in receiving these notices can subscribe in the lower right corner at http://www.energy.ca.gov/2019_energypolicy/, or alternatively manage existing listservs or sign up for others here https://www.energy.ca.gov/listservers/index_cms.html.
