

DOCKETED

Docket Number:	18-IRP-01
Project Title:	Integrated Resource Plan
TN #:	229119
Document Title:	CEC Letter to Mr. Himanshu Pandey - Burbank Water and Power Regarding Meeting California's Energy and Other Policy Goals
Description:	N/A
Filer:	Harinder Kaur
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	7/29/2019 1:07:01 PM
Docketed Date:	7/29/2019

July 29, 2019

Mr. Himanshu Pandey
Principal Electrical Engineer
Burbank Water and Power
164 West Magnolia Boulevard
Burbank, California 91502

Dear Mr. Pandey:

As required by Senate Bill 350 (de León, Chapter 547, Statutes of 2015 (SB 350) in the Public Utilities Code (PUC) Section 9622) the California Energy Commission has reviewed the Burbank Water and Power's *2019 Integrated Resource Plan* filing (IRP), which was received on April 1, 2019. The Energy Commission informed Burbank Water and Power on May 14, 2019, that the IRP filing was complete, as required by Chapter 3, Section B.1 of the *Publicly Owned Utilities' Integrated Resource Plan Guidelines (POU IRP Guidelines)*.¹

Based on a detailed review and analysis of the Burbank Water and Power IRP, the standardized tables, and other supporting information, I have determined that the Burbank Water and Power 2019 IRP is consistent with PUC Section 9621 requirements, and meets California's energy and other policy goals, including:

- Achieving greenhouse gas emission reduction targets commensurate with the electricity sector's percentage of economy wide reductions of 40 percent from 1990 levels by 2030.
- Meeting the renewables portfolio standard of 50 percent by 2030, based on SB 350.
- Ensuring planning goals related to retail rates, reliability, transmission and distribution systems, localized air pollution, and disadvantaged communities.
- Considering the role of renewable resources, grid efficiencies, energy storage, and distributed resources in meeting peak demand.
- Addressing procurement of energy efficiency and demand response, energy storage, transportation electrification, and portfolio diversification.

¹ See: <http://www.energy.ca.gov/sb350/IRPs/index.html>.

Mr. Himanshu Pandey

The docketed staff paper, *Review of the Burbank Water and Power 2019 Integrated Resource Plan*, provides the details of the Energy Commission's review and findings regarding the consistency of the Burbank Water and Power IRP with PUC Section 9621. The Energy Commission anticipates considering adoption of this determination at an Energy Commission business meeting in November, 2019.

If you have any questions regarding this determination, please contact Paul Deaver at Paul.deaver@energy.ca.gov or 916-651-0313.

Sincerely,

Drew Bohan
Executive Director
