Second Notice of Availability and Request for Comments on the Renewables Portfolio Standard 2011-2013 Verification Results Staff Draft Report for Los Angeles Department of Water and Power Docket No. 11-RPS-01

The *Renewables Portfolio Standard Verification Results, Staff Draft Report (RPS Verification Results Draft Report)* for Los Angeles Department of Water and Power for Compliance Period 1 (2011-2013) and [summary claims details](#) are available on the California Energy Commission's (CEC) website at <https://www.energy.ca.gov/programs-and-topics/programs/renewables-portfolio-standard/renewables-portfolio-standard>

The *RPS Verification Results Draft Report* details CEC staff's verification findings of renewable energy procurement claims submitted by Los Angeles Department of Water and Power for Compliance Period 1 (CP 1) of the Renewables Portfolio Standard (RPS), covering the years 2011-2013. A summary claims details table has also been posted to provide detailed information about the corresponding *RPS Verification Results Draft Report*. The summary claims details provide the RPS claims reported by Los Angeles Department of Water and Power for CP 1, and includes detailed information on claims deemed eligible, claims determined to be ineligible, and claims withdrawn by the POU.

Background

Established in 2002, California's Renewables Portfolio Standard (RPS) is one of the most ambitious renewable energy policies in the nation. Enacted by Senate Bill 1078 (Sher, Chapter 516, Statutes of 2002) and accelerated and expanded by subsequent legislation, California's RPS establishes increasingly progressive renewable energy procurement targets for the state's load-serving entities. Originally, California's statewide RPS was restricted to retail sellers; Senate Bill X1-2 (Simitian, Chapter 1, Statutes of 2011, First Extraordinary Session) expanded the statewide mandatory RPS procurement requirements to apply to local publicly owned electric utilities (POUs) starting in 2011.

The California Energy Commission (CEC) verifies the eligibility of renewable energy procured by load-serving entities, which include retail sellers, POUs, and all other entities serving retail sales of electricity in California that are obligated to participate in California's RPS. The CEC is also responsible for certifying RPS-eligible renewable energy resources, developing a tracking system to verify renewable energy procurement for all program participants, and overseeing compliance and enforcement for the POUs. The California Public Utilities Commission is responsible for compliance and enforcement for retail sellers.
